SUBJECT: SATAjet 4000 B RP and SATAjet 4000 B RP Digital approval

Dear Dr. Schmon:

The Eastern Kern Air Pollution Control District (EKAPCD) has received your request to allow the sale and use of the SATAjet 4000 B RP and SATAjet 4000 B RP Digital automotive refinishing spray guns (hereinafter SATAjet spray guns) in the District. After review of the *Evaluation of the SATAjet 4000 B RP non-digital and Digital spray guns for use in the South Coast Air Quality Management District (SCAQMD)*, EKAPCD staff have determined that the SATAjet spray guns are capable of achieving equivalent transfer efficiency to that of HVLP spray equipment. Thereby, meeting the requirements of EKAPCD Rule 410.4A (Motor Vehicle and Mobile Equipment Refinishing Operations).

Based on the information provided, EKAPCD approves the sale and use of SATAjet spray guns in the District. This approval is only valid for SATAjet spray guns that meet the conditions and requirements set forth in the attached United States Environmental Protection Agency, Office of Air Quality Planning and Standards letter dated July 27, 2011.

Should you have any questions, please contact Jeremiah Cravens of our office at (661) 862-5250 or Cravensj@co.kern.ca.us.

Sincerely,

David L. Jones
Air Pollution Control Officer
